

water EXPLORER

Water Explorer is a resource rich, web-based water educational programme that enables 8-14 year olds around the world to learn about water issues and inspires them to take action. Through their involvement with Water Explorer, children have learnt about their role as responsible Global Citizens and changed their water-related behaviour as a result.

3,200

Water Explorer teams have registered to make a positive difference

140,000

Water Explorer has touched the hearts and minds of 140,000 young people

Water Explorers across **11 countries** have completed **6,000 challenges** and engaged with their community **22 million times**

countries

6,000

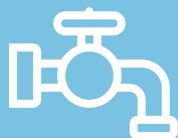

challenges

22 million

interactions

Their efforts have saved

7.5

million m³ of water

96%

of teachers report an increase in students' understanding of local water issues

21

million kgs of carbon

194

Water Festivals held

Water Explorer is an award-winning programme

"Water Explorer has made a big difference to our school in the way that students think about water and water conservation"

Joe Durkan, teacher, Calthorpe Park School, UK

"Water Explorer has made me change my outlook on things. I now realise how precious water is"

Student, Bishop Stopford's School
